Welcome to EduHub 2024

www.eduhub-expo.com

Thanks for being a part in the leading higher education event that's happening for the first time in Egypt.

Our main objective behind organizing this event is to empower the Egyptian youth to be globally competitive with the right education choices and opportunities available to them by providing a comprehensive platform for universities and students to directly engage and network within a 3 days exhibition and exclusive seminars.

We are honored to have more than 50+ leading higher education institutions who all spending great efforts to educate students with higher education options and opportunities and contributing to the success of this event.

We hope you enjoy being a part of EduHub 2024 and looking forward to welcoming you next year.

Kind Regards,

EduHub Team

Egypt University Of informatics

At the Heart of the Knowledge City at the New Administrative Capital, The Ministry of Communications and Information Technology established EUI, in collaboration with the Ministry of Higher Education and Scientific Research, to be the first specialized university in Communications and Information Technology and their affected fields across the Middle East and Africa.

As a non-profit ICT specialized university, EUI seeks to create a specialized ICT community and equip young people with digital skills to fill in-demand jobs in local, regional, and international labor markets. Establishing EUI is part of MCIT’s efforts to build an integrated information society and support the growth of the ICT sector in the New Administrative Capital. In appreciation of EUI’s potential role in producing high calibers of ICT professionals, the Former President of Egypt, Counsellor Adly Mansour, accepted to chair the University Board of Trustees, consisting of highly reputable members from the academia, ICT industry, media, and public figures.

The British University in Egypt

The University's campus was established in El Sherouk, one of the newer Egyptian cities located on the outskirts of Cairo. While the campus initially comprised only two buildings, including a large auditorium with modern conference facilities, it was set on a site of approximately 60 acres which would allow it to develop in the coming years. The British University in Egypt was formally inaugurated by HM King Charles III and HE Ms Suzanne Mubarak, Egypt's First Lady, on 22 March 2006.

University of Hertfordshire

The University of Hertfordshire is widely recognised as one of the leading young universities in the United Kingdom. Renowned for its exceptional system and high employability rate, the university has earned a global reputation for excellence. Founded in 2019, The University of Hertfordshire, hosted by Global Academic Foundation, is the first fully-fledged branch campus in Egypt, bringing globally accredited undergraduate degrees from the UK to Egypt.

This branch campus encompasses the same values, disciplines, and academic standards of UH academic schools in the UK.

The Ministry of Higher Education and Scientific Research has officially equalised our programmes at UH-GAF. With this recognition, the university solidifies its position as a trusted institution, empowering students to pursue their academic aspirations within an internationally recognised framework.

UH-GAF is dedicated to offering top-quality education that meets the market's demands. By carefully designing market-driven curricula to align with industry needs, UH-GAF is thrilled to provide these programmes and six brand-new programmes that equip students with indispensable knowledge, skills, and opportunities to excel in their chosen fields.

SCHOOL OF HUMANITIES

In the world of digital journalism and communications, it has become increasingly important to merge traditional media techniques with modern digital publishing skills and technologies. Students learn to master a wide variety of skills in digital design, film, video-making, advertising, and public relations as well as multimedia and broadcast journalism, which enables them to create and publish content across a broad range of formats.

Our School of Humanities, featuring our Mass Communications programme, focuses on communication and media practice, encouraging our students to be entrepreneurial and professional.

PROGRAMMES

- BA Mass Communications

SCHOOL OF CREATIVE ARTS

A degree in Creative Arts is designed to provide a route to a creative and innovative career in various industries. The programmes offered in Egypt focus on the study of digital media design and interior architecture and design. The extensive use of practice-based experience coupled with real-life projects provides our students with ample opportunities to explore their creativity and skills, whether their passion lies in digital media design or in the interior of the built environment.
